Christian Brodbeck

Education

- 2016- **Post-Doctoral Associate, neural basis of speech perception**, *Institute for Systems Research, University of Maryland, College Park*, Computational Sensorimotor Systems Lab, advisor: Jonathan Z. Simon.
Developed techniques to use MEG with source localization for studying continuous speech perception. Developed means to measure processing of acoustic, phonological, lexical and semantic components of continuous, narrative speech. Applied these techniques to study lexical processing of clean speech and speech in noisy environments. Collaborated to study changes in speech processing with age. Maintained open source software and held workshops making these techniques available to other researchers. Mentored undergraduate student research projects.
- 2011–16 **Ph.D., Psychology, Cognition & Perception**, *New York University, New York*, advisor: Liina Pyykkänen.
Dissertation: "Comprehending language in context: The neural basis of reference resolution". Research on the neural basis of referential language processing involving multiple MEG and EEG studies.
- 2003–10 **Licentiate, Psychology (equivalent to Master of Science)**, *University of Zurich*, concentration: Neuropsychology; 1. minor: English Linguistics; 2. minor: Neuroinformatics, thesis advisor: Martin Meyer.
Thesis: "Information Structure and the Closure Positive Shift: Event-Related Potentials to *Wh*-Question Answer Pairs". Designed and executed an EEG study on the processing of interphrase boundaries in spoken German.

Experience

- 2014 **Teaching assistant, Cognition**, *Brian McElree, New York University*, Fall Semester.
Taught two weekly recitation sessions, held office hours and graded exams.
- 2010 **Research volunteer**, *Claus Lamm, Laboratory for Social and Neural Systems Research, University of Zurich*.
Analyzed psychophysiological data (skin conductance and heart rate) from an experiment on the perception of pain in others and altruistic behavior.
- 2009 **Research assistant**, *Giorgia Silani, Laboratory for Social and Neural Systems Research, University of Zurich*.
Composed a literature review on gender differences in antisocial behavior, empathy, and alexithymia.

- 2006–11 **Clinical assistant**, *Sleep Laboratory Fluntern*, Zurich, part-time.
The Sleep Laboratory Fluntern is a medical facility assisting in the diagnosis and treatment of sleep disorders. I conducted anamnestic interviews with patients and set up and monitored polysomnographic data collection.

- 2013 Gramfort, A., Luessi, M., Larson, E., Engemann, D. A., Strohmeier, D., Brodbeck, C., Goj, R., Jas, M., Brooks, T., Parkkonen, L., & Hämäläinen, M. (2013). Meg and eeg data analysis with mne-python. *Frontiers in Neuroscience*, *7*(267). doi:10.3389/fnins.2013.00267
- 2011 Hein, G., Lamm, C., Brodbeck, C., & Singer, T. (2011). Skin conductance response to the pain of others predicts later costly helping. *PLoS ONE*, *6*(8), e22759. doi:10.1371/journal.pone.0022759

Book Chapter

- 2013 Brodbeck, C., & Silani, G. (2013). Gender and social emotions: A review of the neuroscientific literature on empathy and its link to psychopathy, antisocial behavior and alexithymia. In I. Latu, M. Mast, & S. Kaiser (Eds.), *Gender and emotion: An interdisciplinary perspective*. Bern: Peter Lang.

Presentations

- 2019 Brodbeck, C., Presacco, A., Kuchinsky, S., Anderson, S., & Simon, J. Z. (2019). Increased speech representation in older adults originates from early response in higher order auditory cortex. Symposium talk at ARO 2019.
- 2018 Brodbeck, C., Hong, L. E., & Simon, J. Z. (2018). MEG responses track lexical processing of continuous narrative speech. Poster presented at the 11th international conference on the Mental Lexicon.
- Brodbeck, C., Presacco, A., Anderson, S., & Simon, J. Z. (2018). Over-representation of speech in older adults originates from early response in higher order auditory cortex. Talk at the International Symposium on Hearing 2018.
- Brodbeck, C., Presacco, A., Kuchinsky, S., Anderson, S., & Simon, J. Z. (2018). Origins of cortical over-representation of speech in older adults. Poster presented at SPLASH 2018.
- Brodbeck, C., & Simon, J. Z. (2018a). Tracking phoneme processing during continuous speech perception with MEG. Poster presented at ARO 2018.
- Brodbeck, C., & Simon, J. Z. (2018b). Using MEG to follow the neural processing of continuous speech, from acoustics to comprehension. Invited talk at Portland Health and Science University.
- 2017 Brodbeck, C., Presacco, A., & Simon, J. Z. (2017a). Neural source dynamics of brain responses to continuous speech: From acoustics to comprehension. Poster presented at SfN 2017.
- Brodbeck, C., Presacco, A., & Simon, J. Z. (2017b). Neural source dynamics of brain responses to continuous stimuli with MEG: Speech processing from acoustics to comprehension. Poster presented at the SAND8 workshop.
- Brodbeck, C., Presacco, A., & Simon, J. Z. (2017c). Tracking phoneme processing during continuous speech perception with MEG. Poster presented at the 6th International Conference on Auditory Cortex.
- Brodbeck, C., & Simon, J. Z. (2017). Tracking phoneme processing during continuous speech perception with MEG. Poster presented at SNL 2017.
- 2016 Brodbeck, C. (2016). Unpacking the neural basis of reference resolution: MEG and EEG evidence. Invited talk at the RefNet round table.
- Brodbeck, C., Gwilliams, L., & Pylkkänen, L. (2016a). Modality general and specific brain responses during reference resolution. Poster presented at the annual meeting of the Cognitive Neuroscience Society.
- Brodbeck, C., Gwilliams, L., & Pylkkänen, L. (2016b). Modality general and specific brain responses during reference resolution. Poster presented at the 28th Annual CUNY Conference on Human Sentence Processing.

- 2015 Brodbeck, C., Gwilliams, L., & Pykkänen, L. (2015). EEG can track the time course of successful reference resolution in small visual worlds. Poster presented at the 7th Annual Meeting of the Society for the Neurobiology of Language (SNL).
- 2014 Brodbeck, C., Gwilliams, L., & Pykkänen, L. (2014). Reference resolution and prediction in a visual world: MEG evidence from English and Arabic. Talk given at the NYUAD Annual Research Conference.
- Brodbeck, C., & Pykkänen, L. (2014). Reference resolution in small visual worlds: The role of the medial parietal lobe. Talk given at the RefNet Workshop.
- 2013 Brodbeck, C., & Pykkänen, L. (2013). MEG evidence for immediate reference resolution within a visual world. Poster presented at the 25th Annual CUNY Conference on Human Sentence Processing.

Honors and Awards

- 2018 **Student Presentation Award**, *11th International Conference on the Mental Lexicon*, one of two awards for the best trainee presentations.
- 2017 **Travel award**, *6th International Conference on Auditory Cortex*.
- 2017 **Travel grant**, *SAND8 Workshop*.
- 2016 **Dean's Student Travel Grant**, *New York University*.
- 2011–16 **McCracken Fellowship**, *New York University*.

Technical Skills

- Programming
- High proficiency in Python
 - Performance optimization with Cython
 - Network protocols for distributed computation
 - Intermediate proficiency in R, Matlab, Swift
- Open source
- High proficiency with open source development (GitHub profile: github.com/christianbrodbeck)
- Mne-python: contributor (martinos.org/mne)
 - PySurfer: contributor (github.com/nipy/PySurfer)
 - Eelbrain: primary developer (eelbrain.readthedocs.io)
- Media
- Stimulus programming (Psychopy, Psychtoolbox, Presentation, E-Prime)
 - Audio (Praat, Audacity)
 - Graphics and layout (Affinity Designer, Affinity Photo, Affinity Publisher)
 - Video (Final Cut) and 3d graphics (LightWave 3D)

Languages

- German Native
- English Fluent
- French Basic
- Arabic Basic
